P. Agnes, Inc.

Pennsylvania Society of Professional Engineers, Delaware County Chapter

Project Management Institute Educational Foundation  
Sally and John Kampmeyer

Society of American Military Engineers, Philadelphia Post

Society of Fire Protection Engineers, Philadelphia-Delaware Valley Chapter

Thomas and Julie Gennaro

# FUTURE CITY® COMPETITION, PHILADELPHIA REGION

January 22, 2022

## 2021-2022 Sponsorship Program

The Future City® Competition is a hands-on, real-world learning experience for middle school students to learn how engineers shape the world we live in today and tomorrow. Last year, despite the pandemic and a virtual competition, Future City Philadelphia introduced over 500 middle school students at over 40 schools to the engineering profession.

Over the past few years, the Future City Competition has won three national STEM program awards: US2020 STEM Mentoring Award for Most Innovative Hands-On Project (2017), Henry C. Turner Prize for Innovation in Construction (2016), and the UL (Underwriters Laboratories Inc.) Innovative Education Award Grand Prize Winner (2015).

To help support this educational program, complete and return the sponsorship form today!\* The sooner the better so your sponsorship can be properly acknowledged in our publications and on our web site.

We look forward to including your name in the list of sponsors for the 2022 program!

*\*Invoicing accommodations can be arranged to meet your charitable giving requirements. Future City Philadelphia is a 501(c)3 outreach program of Discover E so your contribution is tax deductible as a charitable contribution to the extent the law permits.*

We are hoping to be able to hold the competition in person, while at the same time planning in case we need to be virtual, as in 2021. Either way, we anticipate that our overall budget will be about the same as in the past.

49% of Future City participants are girls. 33% of participating schools enroll at least 50% of students in a free lunch program.

*"I love Future City. It makes my brain sweat!"*  
– Future City Student Participant

### This Year's Essay Challenge:

**Designing A Waste-Free City:** Design a waste-free city that uses the principles of a circular economy.

Whether in person or virtual, we will need many volunteers: mentors, judges, special award evaluators, conferencing platform technical support (if virtual), and other tasks. Please encourage your colleagues to volunteer for the competition. Volunteers will need to sign up online at [www.futurecityphilly.org](http://www.futurecityphilly.org).
